Can you explain the landlord incentives?	The limitations on eligible activities under section 415(a) of the McKinney Vento Act and 24 CFR 576.105 are waived and alternative requirements are established to the extent necessary to authorize ESG-CV funds to be used under 24 CFR 576.105 to add the eligible cost of paying for landlord incentives as reasonable and necessary to obtain housing for individuals and families experiencing homelessness and at risk of homelessness. However, a recipient may not use ESG-CV funds to pay the landlord incentives set forth below in an amount that exceeds three times the rent charged for the unit. Waiving the limitation on eligible costs under housing relocation and stabilization services to pay for the costs of landlord incentives will increase the number of housing units available to people experiencing homelessness or at risk of homelessness, especially in tight rental markets and obtaining and maintaining housing is critical to preventing the spread of coronavirus and helping mitigate the economic impact of the crisis. The limitation to three times the rent charged for each unit ensures enough ESG-CV funds remain available to provide other eligible activities necessary to prevent the spread of coronavirus. <b>Eligible landlord incentive costs include:</b> Signing bonuses equal to up to 2 months of rent, Security deposits equal to up to 3 months of rent, Paying the cost to repair damages incurred by the program participant not covered by the security deposit or that are incurred while the program participant is still residing in the unit, and Paying the costs of extra cleaning or maintenance of a program participant's unit or appliances.	10-29-2020
